Voted in for Exhibition

Photojournalism

Sports: "Untitled"

Honorable Mention

Sports: "Untitled"

Voted in for Exhibition

Juried Competition is a panel of professionals judging using a point system of voting. A certain point total must be achieved for exhibition. A second judging is held for the entries above the point threshold with the entries for each category judged against each other for awards. The Photojournalism category is for published professional photographers. There were over 5000 entries this year for all categories. Only one out of ten images reached the point totals for exhibition.
